

Preparation for School Team Planning

How will you help the members of the faculty at your school learn about the:

Standards for Mathematical Practice

- Which of the activities pertaining to the Standards for Mathematical Practice, from this academy, will you use with your faculty?
- How will you modify the selected activities to meet the needs of your faculty?
- How will you support the Mathematics teachers as they begin to integrate the Standards for Mathematical Practice in their classroom planning and environment for the coming school year?

Maryland Common Core State Curriculum Frameworks

- Which of the activities pertaining to the frameworks, from this academy, will you use with your faculty?
- How will you modify the selected activities to meet the needs of your faculty?

Mathematics Teachers and the Standards

- How will you help the Mathematics teachers to develop knowledge of the standards in the Maryland Common State Curriculum Frameworks in preparation for future implementation?
- Which of the activities pertaining to the standards in the frameworks, from this academy, will you use with your faculty?
- How will you modify the selected activities to meet the needs of your faculty?
